

## COVID-19 Patient Screening

If there are any positive answers or you have a temperature higher than 99.6 degrees, we will need to reschedule your appointment. You'll sign the consent when you arrive:

1. Do you have a fever or have you felt hot or feverish recently (in last 14-21 days)?
2. Are you having shortness of breath or other difficulties breathing?
3. Do you have a cough?
4. Any other flu-like symptoms, such as gastrointestinal upset, headache or fatigue?
5. Have you experienced recent loss of taste or smell?
6. Are you in contact with any confirmed COVID-19 positive patients?
7. Do you have heart disease, lung disease, kidney disease, diabetes or any auto-immune disorders?
8. Have you traveled in the past 14 days to any regions affected by COVID-19? (as relevant to your location)

\*\*Due to the nature of the procedures we provide, it is not possible to maintain social distancing at all times. Although exposure is unlikely and we have implemented extra measures to ensure patient and staff safety, by entering the office you accept the risk of possible exposure to communicable diseases.
